Cawston

and puts it up "fo the union officials." The 2-cent raise was voluntary on the part of the company. After it had been announced, the union demanded an additional increase.

HOODOOS COMISKEY.
That rain, a broken flagstaff and the

postponed game formed a three-headed hoodoo for the White Sox was proved today when Building Commissioner Downey, who was among the city officials invited to attend the unfurling of the world's pennant, sent President Comiskey a peremptory order to remove the seats from the roof of the grand stand, and to submit a new certificate of inspection of all the structures in the park. Commissioner Downey was "on the roof."

when the storm burst, and was greatly alarmed for the safety of the students.

DEFEATS HIM FOR SENATOR.
[BY DIRECT WIRE TO THE TIMES.]
[MADISON (Wis.) May 15.—] [Exclusive Dispatch.] Within two votes of the Republican nomination for United States Senator, Henry H. Hutton, of Madison, has been defeated, and unable to get beyond the limit to-night, and "a lead-pipe clinch" went to nothing because State Chairman and Lieut.-Gov. W. D. Connor held Assemblymen John W. Nelson out of the caucus. Connor made a secret of this, declaring openly: "I have no interest in the success of Mr. Hutton, and no friend of mine will vote for him." Hutton, however, had been tried to pledge Hatten's future political support, and that when Hatten refused Connor prevented his nomination.

ICE STOPS VESSELS.
[BY DIRECT WIRE TO THE TIMES.]
FT. WILLIAM (Ont.) May 15.—[Exclusive Dispatch.] With twenty vessels tied up in the harbor and from ten to twenty more in the ice, the ice field in Lake Superior, waiting to get in, the situation here is serious. The ice is piling up to a great height, and it is now almost impossible for steamers to get in.

HARRIMAN BUYS RACER.
[BY DIRECT WIRE TO THE TIMES.]
MUSKOGEE (Mich.) May 15.—[Exclusive Dispatch.] E. H. Harriman, the railroad magnate, has purchased a racing yacht from the American Yacht club from a local boat company, and will race the craft in eastern waters during the summer.

REVEREND WOMAN'S CASE.
[BY DIRECT WIRE TO THE TIMES.]
NEWARK (N. J.) May 15.—[Exclusive Dispatch.] The case of Mrs. James Langfleur, who, with her son and banker husband, was convicted of

Court today. The husband and son are not in prison.

San Francisco's crisis. Load of strike-breakers being hauled into Oak-street barn in covered wagon.

ROADS MUST FIX TRACKS.

Washington Railways Facing Prosecutions.

Expert Tells Board Lines Are Very Bad.

Radical Improvements Required Immediately.

(BY DIRECT WIRE TO THE TIMES.) SEATTLE, May 15.—(Exclusive Dispatch.) Track and equipment experts for the Interstate Commerce Commission have been making an exhaustive inquiry into conditions on Washington railroads, and a series of prosecutions may be started as a result of their investigations.

Members of the State Railroad Commission said today that Track Expert Williams of the Interstate Commerce Commission has informed them that the Washington railroads, both in the conditions of their tracks and the supply of safety equipment to rolling stock, are inferior to the roads in the other Coast States.

A. W. Perley, the State's expert, was compelled today to threaten to stop train operation to secure the repair of one bit of track in this county.

Railroad commissioners stated tonight that while no positive danger in operation exists a radical change will be compelled in both equipment and track conditions.

PIERCE STILL UNDER BONDS.

TAKES APPEAL FROM DECISION OF JUDGE ADAMS.

Millionaire Oil Director Will Make Direct Application to Higher Tribunal, in Order to Avoid Going to Texas and Repeating to Jury Charges Against Him There.

(BY THE ASSOCIATED PRESS—A.M.) ST. LOUIS, May 15.—Judge Adams today denied the application of H. Clay Pierce for a writ of habeas corpus. Mr. Pierce is wanted in Texas to answer to an indictment charging perjury in an affidavit made by him in May, 1930, to the effect that the Waters-Pierce Oil Company was not a party to any pool, confederation or combination in restraint of trade.

After Judge Adams had read his decision, Attorney Priest immediately asked that a delay of execution of the court's order be delayed until 2 o'clock this afternoon, to enable him to decide whether to make an appeal to the United States Court of Appeals or directly to the State Supreme Court. Judge Adams granted the request.

Attorney Barclay, representing the State of Texas, asked that the court increase the bond of \$10,000 under which Pierce was released from custody when he surrendered on May 8, but Judge Adams stated that the bond would remain at that amount until 2 o'clock this afternoon.

Mr. Pierce had little to say as he left the courtroom with his attorney. He spoke to several friends who crowded forward to shake his hand, but made no comment.

In his decision Judge Adams reviewed the Texas indictment and the grounds upon which it was based and cited a number of Supreme Court opinions concerning the framing of indictments. The decision continued:

"The indictment in the particular just discussed in my opinion," said the court, "states the substance of an offense within the meaning of the extradition laws of the United States. It is argued that because the offense, prosecution for it is barred from the statute of limitations. That argument is without merit. It may turn out to be true that the petitioners have been absent from the State of Texas during a part of the time since 1930. If so, the duration of such absence would not be included in the period of limitation.

"After a careful consideration of the argument for both sides, the conclusion is inescapable that the substance of an offense is found in an affidavit and that jurisdiction rests alone with the courts of the demanding States to pass upon any question which may arise in its consideration and trial.

SWEAR TO DIE AT SAME TIME.

FOUR GIRLS TAKE POISON ON SAME DAY AND HOUR.

Two Are Dead, and Two Others Though Alive, Are Reported Dying.

(BY DIRECT WIRE TO THE TIMES.) DES MOINES (Iowa) May 15.—(Exclusive Dispatch.) Four young girls, who took poison together, each at the same time, and who had promised each other that when one died all should die, attempted suicide today. Two of them are dead.

The girls live in different parts of the State, but developments this evening show that the attempts at suicide occurred at exactly the same time and in precisely the same way, and for the same reason.

The dead are Kate Farrell of Birmingham, and Kittie Brecht of Cox Creek, while Elizabeth Fletcher of Bonaparte, and Lily Milburn of Darby, are still alive, but reported dying.

All four girls took strychnine just at eight o'clock this morning. It is thought that the sister of Kittie Brecht, who died a short time ago, was a member of the club, and when she committed suicide, and efforts are being made to locate such other members in order to break up the club.

FAVOR ORGANIC UNION.

Congregationalist Convention Not Unanimous, but so Instructs Its Delegates.

(BY DIRECT WIRE TO THE TIMES.) TOLEDO (O.) May 15.—(Exclusive Dispatch.) Congregationalists in Ohio, as evidenced by the vote of their delegates in convention assembled in Toledo tonight, are in favor of organic union of the Congregational, United Brethren and Methodist churches.

The vote was not unanimous, but the negative vote was held not to indicate that the voters were against such a union, but rather that they did not believe the resolution that was offered stated just what was meant to be brought about by the union, if such be made.

Dr. Gladden was much in favor of

TERRIFIC GRILLING SNAPS RUEF'S NERVE.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, May 15.—(Exclusive Dispatch.) Abe Ruef's confession today was wrung from him by one of the most fearful "sweating" processes ever endured by a mortal soul.

Tears, not of grief, but of nervous exhaustion, coursed down his cheeks. He has been tortured until he cries like a girl.

They say he has not been promised immunity. He has simply broken down under the strain of having his every move watched, his every word taken down.

"My God," cried Ruef tonight, "they were there to listen when I talked in my sleep."

His life in the house where Ellisor held him prisoner, he says, had the horrors of the Inquisition.

He would hold secret whispered conversations with his nearest friends. Next day Secret Service Agent Burns would repeat to him what they had said. Every wall in his prison had eyes and ears that were hostile to him. He was all alone among them.

Doctors who came to visit him dropped queer hints over which Ruef would squint suspiciously. Visitors would hint things that Ruef would shudder at.

Burns, the detective, said nothing. He was always smiling and calm. But he would casually mention things Ruef thought to be the secret of his innermost soul.

SAN FRANCISCO STRIKE.

(Continued from First Page.)

men today went to an office at No. 63 West Thirty-seventh street, to make application for employment.

Applicants were told they would be sent out of town and understood that they were to be sent to San Francisco to take the places of striking carmen in that city.

MANY SEATS CHANGE.

(BY THE ASSOCIATED PRESS—P.M.) VIENNA, May 15.—The return from the elections held throughout Austria yesterday, while incomplete, show that the most powerful parties in the lower house that will assemble in June will be the anti-Semites and the Socialists. In the last House the Socialists had only eleven seats whereas they now have already secured sixty seats and they are likely to get more in the re-balloting.

The success of the anti-Semites had not been so remarkable but still it is great.

Consequently there are two distinct features to be seen in the coming House, a socialist party possibly seventy strong, and an anti-Semitic clerical center numbering perhaps eighty or ninety, as the other clericals, who secured twenty-six seats, always make common cause with the anti-Semites.

The young Catholics sustained a crushing defeat. In the last House they had forty-five. In the next they will have three.

The Pan-Germans have almost entirely disappeared. Nationalistic questions appear to have been thrust completely into the background.

NO STRAINED RELATIONS.

Official Statement from Guatemala as to Her Trouble With Mexican Government.

(BY THE ASSOCIATED PRESS—P.M.) GUATEMALA CITY, May 15.—The following official communication regarding the strained relations between Guatemala and Mexico, was made today to the correspondent of the Associated Press:

"Guatemala avers that nothing has taken place on her part to justify strained relations Mexico asked for the extradition of General Lima and the appearance in Mexico of Colonel Byrne to testify in the Barrios case."

"In reply Guatemala proposed that Lima be tried here, the treaty not permitting the extradition of Guatemala citizens and she granted the request that Bone go to Mexico and this in spite of the fact that the treaty permits witnesses to decide whether they shall make their depositions here or abroad."

"On the other hand Mexico has declined to accede to Guatemala's request for the extradition of the 'Colonel' implicated in the recent attempt upon the life of President Cabrera."

STANDARD OIL DIVIDENDS.

NEW YORK, May 15.—The directors of the Standard Oil Company today declared a quarterly dividend of \$1 per share. This compares with dividend of \$15 declared three months ago.

Nothing could withstand that drip, drip, and pick, pick.

Ruef's confession was the cry of a soul in torment.

He raised the labor unions into Catholic power in San Francisco and despised them all the while from the bottom of his heart.

"They would eat the paint off a board," he said today.

He had political allies and political henchmen and political slaves, law clients, men upon whom he levied tributes, but no friends.

He was all alone when he stood to make his tremulous confession to the court—a confession of smooth, elegant classical sentences.

The chairs where his attorneys had sat were vacant. They drew away and Ruef stood alone.

One man, when he sat down, threw his arms about the shoulders of the fallen boss. It was one exalted moment of Ruef's miserable factum and ceasure—Myrtle Cerf.

Cerf begged him not to confess and swore to desert him if he did, but threw his arm around him.

Ruef will go to prison, according to Judge Dunne's statement tonight. But it will be a relief.

Burns, the detective who never gives up, has landed the biggest coup yet achieved by a man in his profession.

GETS DIVORCE AND MILLION.

MRS. JOHN LOVE ELLIOTT GIVEN DECREE IN SECRET.

Former Los Angeles Girl Secures Separation from Her Wealthy Miner Husband and Large Allowance for Support of Daughter—Wins on Statutory Grounds.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, May 15.—(Exclusive Dispatch.) All except the most intimate friends of Mr. and Mrs. John Love Elliott will be surprised to learn that Mrs. Elliott has obtained a divorce from her husband, and not half a dozen persons know that she received \$1,000,000 in alimony and for the support of her daughter, Ethel.

Mrs. Elliott obtained the divorce on statutory grounds with so much dispatch and secrecy that no whisper of it escaped from the innermost circle of her friends. The co-respondent was not named in the papers.

Mr. and Mrs. Elliott were married in 1904, after an elopement. Mrs. Elliott, who was Miss Ethel Irene Stewart, came from Los Angeles, where she sang in several churches. Later she appeared in "Chris and His Wonderful Lamp," a Broadway production.

John Love Elliott, is president of the Consolidated Arizona Smelting Company, and a director in the Mexican Coal and Coke Company.

RAISED CHECK FORGERY.

SAN FRANCISCO, May 15.—Superior Judge Hunt today expressed the opinion that a bank check raised from the original amount for which it was drawn, provided the drawer exercised ordinary precaution, is in a category similar to that of a forged check and the bank that pays it must suffer the loss of the difference between the amount for which it was actually drawn and the amount to which it was raised.

STANDARD OIL DIVIDENDS.

NEW YORK, May 15.—The directors of the Standard Oil Company today declared a quarterly dividend of \$1 per share. This compares with dividend of \$15 declared three months ago.

Nothing could withstand that drip, drip, and pick, pick.

Ruef's confession was the cry of a soul in torment.

He raised the labor unions into Catholic power in San Francisco and despised them all the while from the bottom of his heart.

"They would eat the paint off a board," he said today.

He had political allies and political henchmen and political slaves, law clients, men upon whom he levied tributes, but no friends.

He was all alone when he stood to make his tremulous confession to the court—a confession of smooth, elegant classical sentences.

The chairs where his attorneys had sat were vacant. They drew away and Ruef stood alone.

One man, when he sat down, threw his arms about the shoulders of the fallen boss. It was one exalted moment of Ruef's miserable factum and ceasure—Myrtle Cerf.

Cerf begged him not to confess and swore to desert him if he did, but threw his arm around him.

Ruef will go to prison, according to Judge Dunne's statement tonight. But it will be a relief.

BIG DIVIDENDS IN BUSINESS PROPERTY

By the Unit Ownership Method You Can Find an Independent Investor in a Broadway Building

In considering an investment in Trustee Property No. 2, the unit ownership method, two things should be considered: The property and its management.

IF THE PROPERTY IS WORTH THE MONEY THE MANAGEMENT OF IT IS CAPABLE AND WORTHY, THEN IT CERTAINLY IS A GOOD INVESTMENT.

The property consists of a ten-story fire-proof office building of the first class, on a lot 58 by 155 feet. It will be one of the finest buildings in the city, its location on Broadway, between Fourth and Fifth streets, is in the heart of the retail business district. No block in the city has heavier traffic than this one-third of the building was leased before the steel work was in place, and at the rate applications are being made for office space to predict that the remainder of the building will be leased by the time it is ready for occupancy.

The value of the ground and building is \$350,000, divided into 325 units, which are offered at \$1,000 each.

INVESTIGATE THIS PROPERTY.

YOU CAN SATISFY YOURSELF AS TO THE VALUE OF THIS PROPERTY. If you contemplated buying a unit or without improvements either in the business center or suburbs, you would first satisfy yourself as to the value of the property by buying a unit of Trustee Property No. 2. Now, if you can do the same with Trustee Property No. 2, you can buy units as you desire, or you can buy one-tenth of a unit for \$100.

THERE IS NO BETTER INVESTMENT THAN TRALLY LOCATED BUSINESS PROPERTY IN THE TRAIL DISTRICT OF LOS ANGELES. Most people make this fact, but owing to the magnitude of business property actions, people of moderate means have heretofore been excluded from such investments. By the unit ownership method, well as large investments can be made in valuable business property.

The Trustee Company will manage this property. The company was organized and is controlled by Los Angeles business men of such standing and business character as to insure active and profitable management. They have invested their money in the land and building, and their profits are wholly dependent upon how much money they can make for the unit owners in the quarterly and annual dividends. These men receive nothing until the unit owners have first been paid their profits.

A SAFE INVESTMENT.

UNIT OWNERSHIP IS NOT A SCHEME TO REAL ESTATE, NOT A STOCK-SELLING ENTERPRISE, NOR IS IT A SYNDICATE PROPOSITION.

The satisfactory character of the unit ownership method is attested by the fact that units in business property are valued at \$3,000,000 are owned by a thousand different investors created by The Trustee Company of Los Angeles, The Trustee Company of Seattle, The Trustee Company of Spokane, The Trustee Company of Portland. All of these companies are organized and conducted by responsible business men in the cities who have invested their own capital in the local market and all of them are allied to The Trustee Securities Company, New York City, a strong financial organization acting as agent for the local companies.

BOTH GROUND VALUE AND RENTS INCREASE WITH THE CITY'S DAILY INCREASE IN POPULATION AND COMMERCIAL DEVELOPMENT. INVEST IN TRUSTEE PROPERTY NO. 2 TODAY. If you invest with the great destiny of Broadway no longer a speculation, an assured fact, in its relation to all other streets of the city in the vast and costly improvements already begun and upon this great thoroughfare of traffic, you will get the present values for an investment coined into future dividends.

We have just published Booklet No. 5, which gives you the advantages of Trustee Property No. 2 as an investment, which also explains fully the plan of unit ownership of this property. It will be furnished upon application, either by mail or by mail.

STANDARD OIL DIVIDENDS.

NEW YORK, May 15.—The directors of the Standard Oil Company today declared a quarterly dividend of \$1 per share. This compares with dividend of \$15 declared three months ago.

Nothing could withstand that drip, drip, and pick, pick.

Ruef's confession was the cry of a soul in torment.

Classified Liners.

Times Classified Liners: The rate for inserting "Want" ads in the Daily Times is 10¢ per word for each insertion; in the Sunday issue 15¢ per word, each insertion; minimum charge 50¢. Except as noted, following classifications, the rate for which is 10¢ per line, minimum charge 30¢: "Lost and Found," "Personal," "Special Notices," and "Bath and Massage."

Sunday real estate advertisements, to be classified properly, must be in the Times office before 10 o'clock Saturday night. Rate, 15¢ cents per word.

"Liner" (classified) advertisements for Sunday insertion received over the counter or by telephone after 11 o'clock Saturday night will be inserted under heading "Too Late to Classify."

The Sunday circulation of the Times exceeds 70,000 copies, and more "liners" are regularly printed in 13 columns than in the five other Los Angeles newspapers combined.

Telephone your want advertisements. Ring up "The Times" any time of day or night and secure prompt and careful attention.

The Times cannot guarantee accuracy of any kind occurring in telephone advertisements.

BRONCHIAL TROUBLES

Readily Yield to Soothing, Healing Treatment of Hyomei.

Bronchial troubles are purely local. They cannot be helped by stomach dosing. They are caused by irritation in the air passages and can be relieved and cured by medicated air alone. In this lies the secret of the great success of Hy-o-mei in the treatment of bronchial troubles.

The Hy-o-mei medication, laden with nature's remedies, is breathed through the nasal pocket inhaler that comes with every outfit, reaching every part of the bronchial tubes and killing at once the disease germs. It allays all irritation and heals the inflammation of the mucous membrane with astonishing rapidity.

Treatment with sprays, douches and atomizers in bronchial troubles is condemned by the best physicians, as they cause further irritation. The first breath of Hy-o-mei medicated air seems to soothe the inflammation, stop the cough, and thus relief soon becomes permanent and a cure results.

We do not want anyone's money unless Hy-o-mei gives relief and cure, and we absolutely agree that money will be refunded unless the remedy gives satisfaction.

All druggists should be able to supply you with Hy-o-mei or we will send it by mail on receipt of price, \$1.00, and every package is sold with the distinct understanding that it costs nothing unless it cures. Booth's Hyomei Company, Buffalo, N. Y.

one of the trustees of the sect before its members scattered. The colony was founded on impracticable ideas. Not long ago, the American Bridge Company fixed on Harmony as a desirable site for one of its immense steel plants. Lawyers were employed to find the legal heirs and finally it was learned that John Duss was the sole heir, with power to make a deed. It is said he received \$2,000,000 for the old colony property.

And then began the work of tearing down the town, founded by zealots many years before. The long rows of plain red brick cottages were razed, as was also the quaint old meeting-house.

Today immense mills cover the ground once filled by the followers of an impossible cult and there is nothing left to remind one of the Economites.

OFFER WHEELER CHAIR IN EAST.

DIRECTORS WANT HIM FOR MASSACHUSETTS "TECH."

Presidency is tendered after sounding head of University of California and his acceptance is surely expected—Institution Needs Man Like Him for Place.

(BY DIRECT WIRE TO THE TIMES.) PHILADELPHIA, May 15.—(Exclusive Dispatch.) Benjamin Ide Wheeler, president of the University of California, has been offered the presidency of the Massachusetts Institute of Technology. This fact was learned

BENJAMIN IDE WHEELER, president of State University, who is invited to accept presidency of Massachusetts Institute of Technology.

unofficially from a prominent member of the corporation. He will probably accept, as he has been approached and seems favorable to it.

The presidency of the institute has been going begging since 1905, when President Pritchett resigned to take up his work on the Carnegie foundation. Dean West has been the only one formally offered the position. He refused, but there have been many prominent men mentioned.

The institute greatly needs a man of Prof. Wheeler's type, as its future, both scholastically and financially, is in a most undecided state. No word has been received as yet from Prof. Wheeler.

The action by the institute authorities will not be taken on the presidency until a meeting of the corporation this month, when Prof. Wheeler will be accepted. The appointment comes as a great relief to everyone in authority at the school.

EDITOR DECORATED BY JAPAN.

NEW YORK, May 15.—The decoration of the Order of the Morning Sun was today conferred upon Dr. Louis Klopach, editor of the Christian Herald, by Baron Takewo Osawa, personal envoy of the Emperor of Japan, in recognition of the doctor's work in relieving famine sufferers in Japan last year.

Wheat is the most important cereal used as food for man.

made from Wheat and Celery. No sweetening or other substances to create sour stomach and constipation. Palatable, nutritious and easy of digestion. 10 cents a package. For sale by all grocers.

BEVERLY HILLS

"Between the City and the Sea"

Occasionally some one asks, "Is property a little quiet now?" That depends—do you mean property for utilization or property which has no likelihood of being utilized for years?

Residence property without water, without gas, without car lines, without sewer, without neighbors, without electricity, without any possibility of being used for comfortable residence purposes—That kind? Yes, it is a little quiet.

But how about actual residence property—property that is really practical and desirable, is that also quiet? Try to buy some and see.

Try to buy property that is only half improved, and see what the owner says.

Try to buy business property.

The plain truth is that more well-to-do people are anxious to build, planning to build than ever before in any year or period in Los Angeles.

Business men have been putting off building simply because they were too busy to build and they find themselves in a position where wives and daughters are no longer to be satisfied with promises, but insist on having a home.

The architects' offices, the building contractors, the city records will prove this.

It's the commencement of the building era.

Property suitable for occupation never had a firmer value, never was a better or surer investment. Values in the future will be largely if not altogether governed by the actual desirability of property for immediate utilization.

For these reasons, property at Beverly Hills is now more active than at any time since it was placed on the market. Beverly Hills is the most practical, convenient, fully improved district in California. Read that again.

People Who Seriously Intend to Build Invariably Select Beverly Hills

Beverly Hills is different.

Not designed for speculation. It would, perhaps, sell as rapidly if a sewer system and similar features were omitted. A hundred thousand dollars might easily have been clipped from the outlay and perhaps as much property sold—a hundred thousand dollars saved—this may suggest why Beverly Hills property represents intrinsic value.

Beverly Hills was intended for utilization by the better class of homes—homes where a quiet, beautiful neighborhood would be appreciated, where real good taste would be preferred to the frippery of stone gateways and cement ornaments.

So parks with water gardens, immaculate green lawns, lavishly beautiful flower beds, miles of palms—such things were placed at Beverly Hills (there are four parks.)

Little details that add charm to living—things that cost a fortune—they are at Beverly Hills.

Then a sewer system, and an inexhaustible water supply, and gas, electricity, telephones, broad walks, the costliest and best of street work, these things were deemed necessary for Beverly Hills.

Success is deserved.

The district never fails to instill enthusiasm.

Its scope, sumptuousness, substantial beauty, excite the desire for a home where none existed before.

With its curving avenues, its unusual variety of locations, its scenic beauty—no one who intends to build a better class of home can be satisfied elsewhere.

Prices are low—too low. It may be safely said that no residence property sold in Los Angeles for years represents so nearly its lowest possible intrinsic value as Beverly Hills.

Builders are therefore doubly satisfied.

They secure the most highly improved and high-class property in Southern California and their expenditure in a home is as sound an investment as they could make.

Call at office for long list of expensive homes now or to be built.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Stove Explodes.—A coal oil stove in a rooming-house at No. 515 N. High-street at 9:34 o'clock last night exploded, out the stove and caused a loss of \$40.

John Seeks George.—The Associated Charities desire to locate George Donahue, who is employed by a man named Smith on an orange ranch. His brother, John, has come to Los Angeles in search of him, and is unable to find him.

Cook and Coin Part.—Tuesday evening Al W. Metz, who has a restaurant on East First street, left a new cook in charge, with a new dishwasher under him. Yesterday morning the cook was gone and the cash register bare of coin. The new cook's services for half a night cost Metz \$15.

"Housekeeping" Her Subject.—"Twentieth Century Housekeeping" will be the subject of an address before the Los Angeles W.C.T.U. this afternoon at 2 o'clock in the First Methodist Church. Miss Margaret Bily of Michigan will be the speaker and will accompany her address with entertaining demonstrations.

Dislocates His Shoulder.—Harry Paul, a peddler who lives at Dupont and Amelia streets, fell through a trap door of a store on Main and Arcadia streets yesterday morning. Paul was going to the rear of the store to get his stock of goods. He did not see the open trap door and fell through to the basement. He sustained a dislocated shoulder and his leg was reduced at the Receiving Hospital.

Jumped from Car.—W. E. Boyd, a mining man who lives at No. 1474 Sunset boulevard, fell through a trap door at Rhyolite, jumped from a rapidly moving Santa Monica car at Sunset and Broadway streets last night about 11 o'clock and was seriously injured. He has a laceration over his right eye and a concussion of the brain. He was treated at the Receiving Hospital.

Mock Trial at Poly High.—Students of the class in commercial law in the Polytechnic High School will conduct a mock trial on Wednesday and Thursday of next week, in which the entire class will participate either as attorneys, parties, witnesses or jurors. Today Kemper B. Campbell of the U. S. College of Law will lecture to the class and will preside at the mock trial next week.

Brooklyn Heights' Lucky Thirteen.—A branch postoffice will be opened this morning at No. 3117 Brooklyn avenue, in charge of P. A. Marcott, who has been appointed superintendent. This station will relieve the congestion of Station B on East First street. The King's Highway Improvement Association has been instrumental in securing the improvement. The new station is No. 12.

Funeral Inquest.—That Mrs. Mary Gilmore sustained fatal injuries while stepping from a Los Angeles-Pacific car while it was in motion, was the subject of a coroner's jury which investigated the cause of death yesterday morning. The inquiry was continued from Tuesday afternoon, when the jury failed to agree. While the inquest was in progress the funeral service was conducted at the residence of Connell, Unterkircher & Crawford.

Patrolman Subdues Two.—After a severe fist fight encounter, S. Strauss and Charles Jacobson were arrested yesterday noon at Washington and Main streets. Strauss, who drives a liquor wagon, had violated the hitching ordinance, according to the police, and then resisted arrest. Jacobson, a driver for the National Ice Company, interfered, and seized the officer's club. Patrolman Winn then beat them into submission with his bare fists and sent them to jail. A plate-glass window in Henry Koch's wholesale liquor store was broken during the encounter, which was watched by about two hundred men.

Dies on Operating Table.—Mrs. Catherine Edmonson, the wife of a carpenter living on Avenue 23, died on the operating table at the Emergency and General Hospital on Tuesday night. She went to the hospital to undergo an operation for the removal of a tumor under her right ear, and died after the operation. The body was taken to the undertaking parlors of Connell, Unterkircher & Crawford, on Grand avenue. Dr. Edward Anderson, one of the attending physicians at the hospital, signed the death certificate, but Dr. Keyes, the superintendent, declined Tuesday night, there being had any death at the hospital.

"Rural Californian" Changes Hands.—Today the final papers will be passed transferring the ownership of the Rural Californian to the Los Angeles Press of this city, with Henry W. Krueberg as editor. Since the death of the late C. M. Heints, who carried on the publication for nearly twenty years, it has been in possession of his widow, who now disposes of the property to the new owner.

BREVITIES.—\$2.50 to \$5.00 eyeglasses and spectacles for only \$1.50. An extraordinary offer. A chance to save money. Best All perspective crystal reading lenses in a ten-year gold-rimmed frame for only \$1.50. Regular price \$2.50 to \$5.00. Two graduate State registered opticians in attendance. Free examination. Consultation free. Clark's Optical Parlor, 251 So. Spring st., opposite Heilmann Bldg.

J. W. Frey has moved his stock of mantels, grates, tiles and andirons to his warehouse corner Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brass fireplace trimmings to be found in the United States.

GETS THREE MONTHS' PAY.

Supreme Court Affirms Earlier Verdict in Case of Volunteer Army Officer.

(BY THE ASSOCIATED PRESS—A.M.) WASHINGTON, May 15.—The verdict of the court of appeals in the case of Louis E. Brown, lieutenant of volunteers during the war with Spain, has been affirmed by the Supreme Court of the United States.

Brown was dismissed from the service February 15, 1899, on a verdict by a court martial on which there was a regular officer serving with the volunteers, and which after first finding him innocent, decided he was guilty of the charge of gambling with enlisted men.

He instituted with the court of claims the suit which was decided today. To recover his salary from the time of dismissal to the beginning of legal proceedings. The court held that the proceedings of the court martial were irregular and illegal, because of the presence of a regular army officer as a member of the court, but awarded pay to the measure for the time intervening between Brown's discharge and the mustering out of the troops of which he was an officer, which was only about three months.

Gen. Wood has been criticized in connection with the case for recommending the court martial which had first acquitted Brown, but Gen. Wood's course was not even mentioned in the court proceedings.

IOWA TOWNS QUARANTINED.—SIDNEY (Iowa) May 15.—Smallpox has broken out in numerous places in southwestern Iowa and quarantines are being established at different points. A regular army officer is permitted to enter or leave the town. Armed guards are in charge of every road leading into the place. Sidney is also patrolled by guards. Hamburg is exercising a strict watch over all entering there and four persons who had come from Sidney were arrested and returned to that town.

REACTIONISTS WANT A LOT.—MOSCOW, May 15.—The congress of reactionists closed after presenting and adopting the final report of a committee setting forth the measures it considered necessary for public safety, which include the dissolution of Parliament, the adoption of full martial law wherever there is any revolutionary agitation, disarmament of the Jews, the organization of local stations of the hands of reactionists, confiscation of property of revolutionists, and the exclusion of the Jews from military and civil service.

MOCK TRIAL AT POLY HIGH.—Students of the class in commercial law in the Polytechnic High School will conduct a mock trial on Wednesday and Thursday of next week, in which the entire class will participate either as attorneys, parties, witnesses or jurors. Today Kemper B. Campbell of the U. S. College of Law will lecture to the class and will preside at the mock trial next week.

Brooklyn Heights' Lucky Thirteen.—A branch postoffice will be opened this morning at No. 3117 Brooklyn avenue, in charge of P. A. Marcott, who has been appointed superintendent. This station will relieve the congestion of Station B on East First street. The King's Highway Improvement Association has been instrumental in securing the improvement. The new station is No. 12.

Worthy Towels at
Actual Bargain Prices

Towels were bought away under the market price of months ago, and since then, as most everybody knows, there has been a steady advance in linens of all kinds.

But just to advertise this splendidly equipped linen department, to get the new-comers better acquainted with this important section of our establishment, we are going to offer these towels today at prices that will be the envy of the town.

Hotel proprietors and housekeepers take warning.

Huck Towels 10c
Extra fine linen huck face towels, large popular size, good absorbent, splendid lintless towel that we would sell as a leader at one-and-a-half cents, today, at 10c.

Huck Towels 20c
Large, pure linen huck towels, large—22x44 inches—such that if bought today would have to be sold for half price more. All white, or navy blue. During this sale, at 20c.

Bath Towels 25c
Not only extra large (22x46 inches), but an unusually fine, firm, heavy bleached towel. We would consider it a sterling bargain at thirty-five cents—doubt if it can be matched at that. Special at 25c.

Fancy Bath Mats 65c
Lay a bath mat on the floor and finish your bath comfortably. Extra heavy ones on sale today, 38x24 inches. Blues, reds, greens and tans with handsome floral designs. Extra values at 65c.

\$2.75 Napkins Today at \$2.25
Each dinner napkins, half bleached, pure Irish linen, full assortment of patterns. Special today, \$2.25.

TRUSTS GO "BUST"
IN JUST ONE WEEK.

Many Local Combinations Give Up the
Ghost in Face of Cartwright Law.

Bakers, Ice Men, Labor Union, Lumber and Brick Kings, Electricity Purveyors and Numerous Other Associations Hit by New Act Will Abrogate Agreements—General Compliance With Measure Expected.

ANY trade restrictions in California are to be removed next Thursday when the Cartwright anti-trust law becomes operative. Competition is said to have freer swing. Prices are to tumble in many lines. They already have gone down on lumber and some other commodities in anticipation of the law. A reduction of 25 per cent. in the price of lumber is claimed even now through the smashing of the combination.

"Trust busting" is going on all along the line. It has hit bakeries, groceries, flour mills, ice dealers, furniture dealers, electric light and power companies and those who handle many other commodities in general use.

Combinations that have existed here for years for the purpose of fixing and maintaining prices are getting in out of the way, so they will have a dry pair of heels one week from today, when the law goes into effect.

So many trade combinations have been broken within the last few weeks that there apparently will be few trusts to "bust" on the 23rd inst. The desire of the members of old trusts to cut off the tentacles of the large and small octopi is more pronounced as the terms of the law become better understood. Scores of local trusts have given up the ghost—a labor union among them. Many more contemplate doing so ere the dawn of next Thursday.

With remarkable alacrity, the business men of Los Angeles are conforming with the provisions of the Cartwright law by withdrawing from combinations of various sorts. In many instances they have advised District Attorney Fredericks that they intend to comply strictly with the law; to withdraw from combinations now lawful, which, after the 23rd inst., will be under the ban.

Through the breaking up of numbers of these large and small trusts it is expected that the bars of competition will be let down at once.

These are some of the lines in which trusts, within the meaning of the act, now exist in Los Angeles and in which it is asserted that the combinations will terminate voluntarily next Thursday:

Bread and other bakery goods, butter, cheese, eggs, flour, groceries, small fruits, ice, drugs, lumber, brick, hardware, electricity, furniture, job printing.

There is a little apparent disposition to fight the law. This absence of a bellicose spirit is ascribed by the District Attorney and his "trust-busting" assistants, Frank W. Blair, to the intelligence and the law-abiding character of local merchants and manufacturers.

While the members of some trusts have not yet signified their intention of getting out of these combinations, it is generally understood that they will do so rather than run the risk of prosecution under the law.

The fact that the Cartwright act is practically an exact duplicate of the Ohio law, which has been declared constitutional, and which has brought many trusts to book, probably has had its salutary influence.

HITS MANY HEADS.

So general are the terms of the new law that hardly any association of business men is entirely free from application of one or more of its provisions. It really has startled the officers and members of numbers of associations whose objects have nothing to do with the fixing of prices. Some of these have been assured that they have nothing to fear from the law.

Once it was thought that the Southern California Fruit Exchange might be affected. It is said now that this organization does not come within the provisions of the law. In fact Senator Cartwright, author of the bill, and Gov. Gillett, who signed the measure after hearing all sides, informed officers of the exchange that it would not be affected.

The greatest triumph for the new law, it is claimed, is in the wiping out of the lumber trust. No secret ever made of the fact that trust existed in this line, but it was maintained by the local association of dealers that the combination was among the millmen and manufacturers. In the North But the law reaches out and stuns the products of a trust at the California State line.

Whether here or in the North, something has hit the combination and prices have taken a tumble. Dealers profess to be glad of it. Many of them say they were forced to enter into the combination that against their will. They say competition will be free now; that they will operate on broader business lines in the future.

CANTALOUPE'S FIRST HIGH.

Dollar and Quarter Each Paid for Them Here Yesterday.

The first crate of cantaloupes to arrive in Los Angeles this season came in yesterday, from Brawley, in the Imperial country. There was a wild scramble of the managers of the large downtown hotels to capture them, and as a result a spirited bidding contest ensued.

The price for the crate of twenty-five cantaloupes was run up to \$32.50, making each melon cost the hotel proprietor \$1.25.

The figure equals the price of cantaloupes in Goldfield last summer before the railroad made such dainties comparatively cheap.

The shipment came to the Frank Simpson Fruit Company, which handles the entire output in this section from there.

When the people get tired of the

THIS HEROINE
MUST SUFFER.

RISKS LIFE TO SAVE STOCK OF
BURNING STORE.

Brave Woman Clerk Will Always
Carry Scars, but Makes Light of
Her Injuries—Only Desists from
Efforts When Dragged Away from
Blazing Building.

In a heroic effort to save her employer's property, Mrs. Marguerite Hynes, the pretty clerk of E. B. Burlingame, a grocer at Pico and Irolo streets, was severely burned on the face and arms, yesterday afternoon, when the little store caught fire.

When the fire broke out, Mrs. Hynes was in a side room, arranging stock. Detecting the smell of smoke, she ran

lodge, Dr. J. F. Scortee of Vermont and Pico streets soon arrived and found Mrs. Hynes severely but not dangerously burned.

Swathed in bandages and lying in a reclining chair, Mrs. Hynes gave her story of the fire: "I don't know how it could have caught," she said. "I was in the stock room at one side of the building, when the fire broke out. I ran to the front door and called to a little girl to get the fire department. I started back in the store but the smoke and flames drove me out. I then broke in the show window with my bare hands and, with the aid of a man who was passing by, got the cash drawer out. There were about \$50 in it.

"I lost my purse, about \$1 and my hat, but I don't think so much of that as I do of my employer's loss.

"Mr. Burlingame slept in the rear end of the store and kept his trunks and personal articles there. All were lost. I was not cooking at the time, there was no gasoline in the building and the gas was not lit.

"Mrs. Hynes is not much over 20 years old. Although evidently suffering intense pain last night, she did not let a groan escape her and made light of her injuries, which will probably leave scars on her face and arms.

Burlingame carried \$500 insurance on his stock, but his loss is estimated to be more than \$1000. The building belonged to C. E. Bennett and was not insured.

**ACCIDENTS
EPIDEMIC.**

Four Freight Wrecks on the Santa Fe, and the Loss Looks Great.

Being only freight trains, four wrecks on the Santa Fe within the past few days between San Bernardino and Ash Fork, on the desert, have not been noticed, overshadowed as they have been by the Honda horror on the Southern Pacific, in which so many Shriners visitors were hurled to a terrible death.

But near Cajon Pass two freight trains have been smashed up; near Needles another freight has been made kindling wood of, while near Ash Fork still another large freight was piled in a heap. Just what the loss is could not be positively verified yesterday, but it is said to be up among the hundreds of thousands of dollars.

The statement was also made yesterday that the railroads are so overwhelmed with traffic, such quantities of freight are offered that every transcontinental road is worked to the top notch to handle the business. For this reason engines are used which, under ordinary circumstances, would be sent to repair shops. Now there is not time to do this.

This is said to partially account for the great number of accidents which have lately spread like an epidemic along the steel roads of many lines.

into the store. Almost immediately the entire rear of the building burst into flames.

After running to the door and screaming an alarm, the plucky young woman returned to save a portion of the goods if possible, but found that she was in a dangerous position.

Mrs. Hynes then rushed outside and with her hands broke the front window. Clouds of smoke rolled out. Then mounting upon the window seat, bits of jagged glass rendering her footing very precarious, she aided in removing the cash drawer and would have remained longer in the window, but for the arrival of neighbors who forced her away from the burning building.

With blood streaming from her arms, which had been cut by broken glass, and with face and arms badly burned, she was taken to her room at No. 1123 Harvard boulevard and a physician was summoned.

Fortunately for Mrs. Hynes, the woman with whom she roomed, Mrs. William Haynes, is a trained nurse and did what she could for her suffering

monopolies they will have to seek some remedy that has not yet been tried.

DEFINITION OF A TRUST.

The Cartwright law is sweeping in its provisions. This is its definition of a trust:

A combination of capital, skill or acts by two or more persons, firms, partnerships, corporations or associations of persons, or of any two or more of them, for either, any or all of the following purposes:

(1) To create or carry out restrictions in trade or commerce.

(2) To limit or reduce the production, or increase or reduce the price of merchandise or of any commodity.

(3) To prevent competition in manufacturing, making, transportation, sale or purchase of merchandise, produce or any commodity.

(4) To fix at any standard or figure, whereby its price to the public or consumer shall be in any manner controlled or established, any article or commodity, or service, or figure, or of transport any article or any commodity, or any article of trade, use, or consumption in this State.

(5) To make or enter into any contract, or carry out any contracts, obligations or agreements of any kind or description, by which they shall bind or have bound themselves not to sell, dispose of or transport any article or any commodity, or any article of trade, use, or consumption in this State, or to sell, dispose of or transport any article or any commodity, or any article of trade, use, or consumption in this State, or to sell, dispose of or transport any article or any commodity, or any article of trade, use, or consumption in this State, or to sell, dispose of or transport any article or any commodity, or any article of trade, use, or consumption in this State.

FORFEITURE OF RIGHTS.

For violations of provisions of the act it is the duty of the Attorney-General of the State, or the District Attorney of the proper county, to institute suits for the forfeiture of charter rights and franchises of the offending corporations or associations. Foreign corporations or associations violating the law are to suffer the revocation of licenses to do business in this State.

Violation of either or all of the provisions of the act is declared a conspiracy against trade, and any person who may take part in such conspiracy in any way, as principal, manager, director, agent, servant or employee, or in any other capacity, "shall be punished by a fine of not less than \$50 nor more than \$500, or by imprisonment not less than six months nor more than one year, or both such fine and imprisonment."

Each day's violation of this provision constitutes a separate offense, wherefore the penalty is likely to mount high where the offender is persistent in wrongdoing.

In any indictment, information or complaint for any offense named in the act, it is sufficient to state the purpose or effects of the trust or combination, and the accused is a member of, acted with or in pursuance of it, or aided or assisted in carrying out its purpose, without giving its name or description, or how, when and where it was created.

In prosecutions under the act, it will

Coulter the northwest corner of Sunset boulevard and Grand avenue; lot 16x150 feet, improved with several small buildings. The consideration reported is \$2000. The new owners are now at work removing the old buildings, and plan a three-story pressed brick building for the corner. C. K. Valentine also has purchased from Mike Polich, the northwest corner of Sunset boulevard and Centennial street, lot 50x150 feet, for the reported consideration of \$2000. Elvin J. Curry has purchased of George W. Palmer, 100 feet frontage on Occidental boulevard, located about 200 feet south of Sunset boulevard. The price was \$2000. Roy Jones bought of E. A. McTear, the property at No. 1217 Arapahoe street, consideration \$2500. H. E. Knorr has sold to Mrs. A. E. Sands a lot on Arnold street, about 150 feet east of Union avenue. The lot is 50x150 feet in size. The reported price is \$175. In the Rowland Heights Tract the following sales are reported: To D. W. Maloon, lot 143, consideration \$1000. To J. M. Flowers, lot 147, consideration \$2000. To L. P. Gulberson, lot 142, consideration \$1800. Other sales are: Robert F. Jones has sold to Clayton Bedell, 50 feet fronting on Carl avenue, about 100 feet west of Santa Monica avenue, consideration \$750. Roy Jones has sold to E. A. Meserve, 150 feet on corner of Twelfth street and Grand View, consideration \$10,000. J. M. McGarry has sold to E. A. Meserve, 50 feet fronting on Grand View, 150 feet north of Twelfth street, consideration \$5000.

DUNKERS SEEING LOCAL SIGHTS.
HUNDREDS MORE ARE DUE BY SPECIAL TRAINS.

Standing Committee Will Meet in Executive Session Today and Elect Moderator and Clerks for the Conference—Bible School to Open Tomorrow Morning.

Activity continued at the Dunker headquarters in Temple Auditorium basement yesterday, all trains bringing delegates, and one heavy special arriving from the East at an early hour in the morning. Two specials are due some time today—one from the North and the other from the East. The train from the East yesterday brought many Pennsylvanians, among them being Bishop H. E. Light and party of thirty-four, from Lancaster, Pa. All delegates, whether on special or regular trains, have thus far arrived without mishap of any kind.

A number of the visitors yesterday took in the sight-seeing side of the city, visited the old mission at San Gabriel, Baldwin's ranch and the Osborns. Today a number are booked for a trip to Catalina, and others for the run trip to Long Beach and Huntington Beach. The former will leave the Pacific Electric building at 9 o'clock this morning, and the latter will start from the same place at 10 o'clock.

STANDING COMMITTEE.
The following members of the committee have arrived and will be present at the organization of the committee this morning:

First District of India, S. N. McCann; Oregon, Washington and Idaho, J. Harmon Stover; Southern California and Arizona, Edmond Pomeroy; Northern California, David Snyder; Oklahoma and Indian Territory, Samuel Edgerton; Texas and Southwest Louisiana, A. A. Sutter; Southwestern Kansas and Northern Colorado, T. E. George; Southeastern Kansas, S. E. Lantz; Northeastern Kansas, William Davis; Nebraska, N. B. Wagoner; North Dakota, Northern Minnesota and Western Canada, George Stricker; Northern Iowa, Southern Minnesota and South Dakota, J. E. Ralston; Middle Iowa, I. W. Brunker; Southern Iowa, H. C. N. Coffman; Northern Missouri, J. H. Keller; Middle Missouri, J. W. Lenta; Southern Missouri and Northwestern Arkansas, F. W. Dove; Missouri, by letter; Southern Illinois, D. J. Blickenshaft; Northern Illinois and Wisconsin, John Heckman; Northern Indiana, I. L. Berkey; Middle Indiana, Daniel Snell; Southern Indiana, L. T. Holinger; Northwestern Ohio, L. H. Dickey; Northeastern Ohio, Noah Longacker; Southern Ohio, D. M. Garver; I. J. Rosenberg; Western Pennsylvania, Silas S. Blough; Middle Pennsylvania, W. J. Swigart; Southern Pennsylvania, William A. Anthony; Eastern Pennsylvania, John Herr; Middle Maryland, D. V. Long; Eastern Maryland, George F. Sappington; Second District of Virginia, H. G. Miller, A. S. Thomas; First District of Virginia, J. A. Dova; Henry Kenberry; Tennessee, John H. Gars; North and South Carolina and Georgia, J. Henry Peterson.

The districts of Sweden, Denmark, France and Switzerland: First District of Arkansas and Southeastern Missouri, W. Michigan, Western Maryland and the Second District of West Virginia will not be represented.

The Standing Committee will be in session all day, but only the members of the committee will be permitted to be present. Tomorrow morning the Bible school will open in Choral Hall, to continue all day, and in the evening an address will be delivered by A. C. Winstead of the Bethany Bible School, Chicago.

FOR GOOD FELLOWSHIP.
Local Civic Bodies Create Joint Committee to Expedite Business Unity of Southwest.

Good fellowship is to be promoted in society and business between Los Angeles and the wide reaches of Nevada, Arizona and New Mexico. The matter has been discussed by the Chamber of Commerce, the Los Angeles Clearinghouse Association, the Chamber of Mines, the Wholesale Jobbers' Association, and the Merchants' and Manufacturers' Association. Yesterday afternoon, at a meeting of the Chamber of Commerce directors, a committee was appointed to expedite matters. The chairman is Gilbert S. Wright, and he will be assisted by Fred A. Hines, H. C. Zickler, N. C. by Charles F. Lummie, who, in a few days, will leave as a delegate to the present conference, held there. The board also passed a formal vote of thanks to the police force, street car employees and others for the safe and courteous handling of the large crowds during Fiesta week.

Yesterday's Regular Edition 50,700
The Times has a larger regular bona-fide circulation than any local rival. It circulates widely among the intelligent, industrious, substantial, forward-looking classes. The greatest volume of business advertising, the finest display, the best classification, the largest results to advertisers.

Office: Times Building, First and Broadway.
Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.

PART II: EDITORIAL, LOCAL AND BUSINESS SECTION

Pen-points

Abraham Ruef has already paid the price.

It looks like the beginning of the end in San Francisco.

It is in order for Mayor Schmitz to come forward with his little schtick, also.

The vultures of the Golden Gate have begun to tear sick at their stomachs.

We think Abe Ruef's speech to the court may be regarded as a classic of despair.

The great hope of the world lies in the fact that the fight for honesty never lets up.

After all the trouble there was to secure a jury to try Ruef it now has nothing to do.

The Heney and Burns system of swears appears to bring about the desired results.

King Alfonso may have passed around the cigars, but we haven't seen any of them.

Perhaps burglar Fleener spiritualized himself and just naturally waited away. He is a poet.

The police are the modern soldiers of fortune. They will support the standard that's in power.

It's a wonder the labor unions don't get tired of supporting so many loafers like Mahon and Cornelius.

It is wonderful how long a girl will wear an old dress that her favorite young man likes to see her in.

Those pretty Dunkard girls must certainly love their religion, when they are willing to wear those bonnets.

When a Los Angeles real estate man doesn't make more than about seven sales a day he says business is dull.

The same yellow streak that's in Ruef is in all the rest of them. But San Francisco is very slow to find it out.

The fight for the Owens River should not be allowed to lag. Its enemies are working the other way day and night.

The tribe to which Pocahontas belonged is extinct. The other tribes haven't very much the best of it, either.

It would prove a great sensation to the nerves if the world would adopt a system by which we could hear one noise at a time.

The claim that there is no money in literature is true, for the reason that there is no literature for the money to go in.

Fame is not so difficult to acquire, after all. John L. Sullivan got a new lease on it merely by keeping sober for a few weeks.

Japan wants the United States to enter into a treaty of alliance with her. We don't have to do it, and we wouldn't if we did.

A St. Louis woman asks a divorce on the ground that her husband chews tobacco in bed. Some women are certainly very fast-finding.

The London Word says "a good thing" laugh is seldom heard any more in England." They didn't look at us. We have none to spare.

"Money talks," to be sure, but that should not discourage the average woman, who is doing the best she can to keep up the conversation in the meantime.

It seems that Ruef's lawyers were disgusted when he decided to plead guilty. Will the time ever come when lawyers will not be found on the side of criminals?

The preacher pronounced it "the holy bonds of matrimony," but there is a suspicion that Mabelle was also thinking of the other bonds that very keeps in his snuff.

A New Orleans physician announces that he can cure men of kindness. If he confines his practice to that peculiar specialty he will starve to death for lack of patients.

The man who complains that he has too much to do should think of the low who is trying to fulfill the duties of smoke inspector in Chicago.

Seattle's latest claim to greatness is at the waters of her harbor wash a shined population of 200,000 people.

Just as soon as she gets time will annex these countries and displace them into city wards.

The announcement is made from me that "Count Pompeio Campello" succeeded his cousin, the Marquis Recondino, as master of the foxhounds. This being true, we can see reason why the earth should not live to revive on its axis, as formerly.

trees promise to give a considerably larger number of carloads than for the summer of 1906. The outlook for prices for Valencia is always good, and was never better today. So far as the market goes, it has been the best that the orange growers of Southern California have ever experienced. There has not been a glut at any point. There is not likely to come anything in the way of the Valencia crop between now and Thanksgiving time to interfere with these oranges bringing exceptionally high prices. The weather conditions all over the East not only are keeping back small fruits and early vegetables, leaving an open market for the oranges going east at the present time, but the severe weather is more than likely to interfere with all kinds of fruit crops all over the whole area of the Eastern States, thus creating an active demand at all times for the Valencia.

When the growers of Southern California have finished marketing their crop, and the results are all gathered up from one source and another, there is every reason for the belief that the net proceeds coming into the hands of the growers will be greater than that of last year, and even for the year before, although in that season the crop was the largest ever shipped out of this section. The higher prices brought by the crop, this spring, the exceedingly few cases in which the ledger account of any carload showed red ink on the wrong side, are so rare and the saving of freight in the smaller number of carloads, as compared with two years ago, all indicate that the growers as a whole will receive more money in 1907 for their orange crop than they ever received before.

RAILROADS TO WEED OUT INCOMPETENTS

The railroads entering Chicago are considering the advisability of establishing a central employment bureau to secure a better grade of employees, according to a dispatch published yesterday. This bureau is to have a complete list of all operating employees in the United States, with their records of service. When a man applies for a job the official in charge of his department will ascertain from the bureau the man's record, and if it is not satisfactory there will be no job for him.

This means, in effect, that if a man is dismissed from one road for intoxication, if a careless engineer runs by orders at full speed and wrecks the train, or goes to sleep on duty, or in any way proves himself to be incompetent and criminally careless, his record will be accessible at any time. Those sixteen Lake Shore engineers who ran past signals would find it hard to get employment under such a system. And this is the way it should be.

Next to the granting of licenses by the Federal government this is the best plan yet proposed for checking the awful conditions now prevailing on American railroads. It will be a step in the direction of the iron-clad military discipline that must come in place of the laxity now existing.

It is hardly necessary to add that the labor unions are opposed to this innovation, just as they are to anything else that tends to the improvement of service or to better discipline. A better grade of employees, with the discouragement of the shiftless, wandering class that is always ready to strike or make trouble, is the last thing that Garretson, Morrisey and the other waiting delegates want enacted. When this is done the people should make themselves heard.

Let every man consider this a personal matter. It is not in any sense a simple fight between the railroads and their employees; it is squarely an issue between the general public and the men who are endangering our lives by frequently violating the laws by their incompetency. Every man who travels, every man whose wife, mother, sister or daughter may go to a neighboring town is vitally concerned.

ALKAHOLS

Alkali Sam has found an alleged rancher of Owens Valley who professes to know more about the quality of water from merely looking at it than all the chemists can learn by analyzing it, and the rancher says Owens River water is unfit to drink. Sammy's own emissary last year found many pioneer ranchers in Owens Valley who told him they had been drinking the river water for years and had felt no ill effects. Sammy's man, on the latest expedition, drank water from the river and found it good. Sammy's chemists analyzed samples of the water last year and reported that it was twice as good as Los Angeles river water, and a year ago Sammy said editorially that the water was fit for domestic purposes.

Many of the positive assertions made by Sammy's rancher are contrary to fact. It is not true that "all the rocks and gravel on either side of the river are coated with soda." It is not true that "all the land on either side is full of alkali and soda." Plants that do not tolerate alkali grow in the water and along the banks of the river and the river is full of fish. Thousands of acres of land on both sides of the river are fertile and produce crops which do not tolerate alkali. It is not true that cattle become "alkali" from drinking river water, even if some ranchers hold that theory.

Some ranchers are intelligent, observing men; others are ignorant and stupid. The stupid ones proclaim that they know all about water because they live in the valley. A man may live six years in Owens Valley and still be mistaken or foolish. The intelligent ranchers have noticed that

IF THEY DON'T "WATCH OUT."

telligent ranchers have noticed that the cattle which drink from pools in the river for water, are affected by alkali.

That the water of Owens River is better than the water now used in Los Angeles has been proved by scores of chemical tests and is known perfectly well by Alkali Sam, but knowledge of the truth will not deter him from reiterating falsehood. He is hired to serve the sordid purpose of class traitors, and he is incorrigible.

WHO RUNS OHIO?

The attempt of Senator Foraker to capture the State and prevent the election next year of a Republican President of the Roosevelt type has brought about a state of warfare in Ohio which, so far as we are informed, is confined entirely to the Republican political machine. The machine seems, as usual, to halt between two opinions, or rather between the two sides in the controversy. The machine politicians are probably following the tactics of their kind, waiting until there is some development which will indicate which element is the stronger, in order that they may get with due promptness on that side.

So far, there seems to have been little attention turned to what the Republican electors of the State of Ohio think about the matter. Of course there is an explanation ready. It is in the nature of the machine, because a few manipulators can tell just how the wheels are going to turn. To ascertain the will of the great mass of the people is difficult until the election day comes.

This condition brings to mind the fundamental principles that underlie the true Republicanism, and many incidents in the history of the party. The Republican party was born and its first organization effected in direct opposition to a powerful political machine which had controlled the destinies of the country, one Presidential term after another, for years from the time of Andrew Jackson to that of James Buchanan, with very few interruptions. The birth and organization of the Republican party were due to a spontaneous uprising on the part of the people themselves, with an utter contempt for the machine, its manipulators and workings.

As success has come to the party, frequent efforts have been made to thwart the will of the people by the judicious handling of a powerfully built and well arranged political organization. The attempts have not always failed, by any manner of means. But successes have only come to the machine when there were no sufficiently great issues before the people to arouse any general enthusiasm or earnest interest. At times when great things were at stake, either in the way of principles or persons, there have been endeavors to introduce Democratic methods into the Republican party. The people who were most active in 1860 in attempting to nominate Gen. Grant for the third time for President tried these Democratic tactics. One scheme was to force the unit rule upon the delegates to the Chicago convention. When the party representatives from all parts of the country came together, it was short shrift for the machine politicians. In every instance it was held that each Congressional district had a right to elect its own delegate, that this delegate was bound by no ties except those of his own conscience to do what he thought was nearest to the desire of the people he represented, and best for his party and his country.

When Senator Dick of Ohio reached an assembled convention representing the Republican people of the State, he will be able to tell thoroughly the strength of his machine. So far as any indications have come to the

surface of the temper of the Republican electors, they show that Ohio will be heart and soul for the Roosevelt principles and methods in politics. It is not to Mr. Dick and his machine that we will look for an answer to the question, how does Ohio stand on the issues which will shape the party's course next year, but to this convention, where each member will represent the Republican voters of a district and will be bound by nothing but his own views. The machine manifests no serious intention of going violently against the will of the people. If Senator Dick and his political friends are really in favor of Mr. Foraker, they will use all the influence in their power to bring the convention over to their way of thinking. The machine will not fail. They will fall in heartily with the will of the majority of the convention. To do anything short of this would be rash political suicide.

CURIOUS BLUNDER

In the report of the Mothers' Congress printed in yesterday's Times, a curious typographical blunder was made in the description of the armed conflict between the United States forces under Stockton and the armed Californians who met them at the San Gabriel River in January, 1847. The statement was: "When they reached the San Gabriel River, near Los Angeles, they were met by a force of 'bad' Californians, composed of infantry and cavalry, with several cannons." It was not intended by the writer to say that the hostile Californians were "bad," but that they were bold and 600 in number. The question of "badness" is according to the viewpoint. The American invaders were doubtless considered "bad" by the native Californians, who had the undoubted right, from their standpoint, to defend their country, then invaded by American troops. On the other hand, the Americans had their own good reasons for acting as they did in the premises.

THE MOTHER'S HYMN.

Of old they brought their babes to Thee,
Our earthly ways who trod,
And setled in our humanity
The mighty love of God.
The mothers held their little ones
So very close and near,
Thy look was brighter than the sun's
And yet they felt no fear.
Thy blessing, gentle as the dew
And heaven itself came floating through
The words the Master said.
The mothers of a younger day
Are faint to seek Thee in the way
To Thee, our prayers would climb.
We seek Thy blessing on our own,
Sweet lambskins of the fold,
We bring our children to the throne
In aspirations bold.
Receive us, Lord, as it indeed
We touched thy garment's hem
Accept our little ones, we plead
Be all in all to them.
Oh, Christ, who walked beside the sea,
To whom the children clung,
Let mothers' praise ascend to Thee
In every land and tongue.
And for the land divinely blest
One blessing more we crave;
Accept the offspring of our best
And all our children save.
MARGARET E. SANGSTER.

He Was Satisfied.

A Baltimore man had until recently a dinky in his employ—about as shiftless and worthless a dinky, says he, as ever he came across.
One day the employer, his patience exhausted, called Sam into his office and told him to look for a new dinky.
"Will you give me a letter of recommendation?" asked Sam, pitiously.
Although he felt that he could not conscientiously comply with this request, the Baltimore man's heart was touched by the appeal. So he sat down to his desk to write a non-committal letter of character for the negro.
This man, Sam Harkins, has worked for me one week and I am satisfied. (Harp-er's Weekly.)

LETTERS TO THE TIMES.

The Times freely publishes the views of correspondents without holding itself responsible for the opinions expressed. The space of 20 words, on the average, is sufficient for the point. Well-written letters are liable to be delayed merely as a matter of convenience.

The Honda Wreck—Another View.

LOS ANGELES, May 13.—(To the Editor of the Times): I have read both of Mr. Rafter's articles on the cause of the wreck. I have been somewhat familiar with railway construction and car building for twenty years, and I cannot refrain from expressing my opinion that the wreck was caused by faulty track.

Near the lower left-hand corner of the photograph published today, is a joint in the left rail of the main track. Follow that rail towards the car. The end curves out and rests against the V of the frog. In that style of frog that piece of rail is left loose. Every time a wheel passes the frog, going to or from the siding, the flange wedges in between the V and the curved rail, the latter giving way to let the wheel pass. Ordinarily there is a coil spring holding the curved end against the V, but I do not see any in the picture. The spring may have been broken off. But the picture shows enough to absolutely locate the cause of the accident.

Opposite the frog, look at those stinky little guard rails, only three or four feet long. With that style of frog, the main guard rail should protect the entire length of that loose rail, and then some. If the switch at Honda were properly built, the photograph would show a guard rail extending from about the end of the car to the lower end of the picture. Rails are made by running white-hot Bessemer steel between rollers. The rolls usually stand a foot or so above the floor of the mill, and the steel, as they go through, is forced to the finished rails are not straight, but curved. To straighten them would involve a little extra expense for labor.

Lay a straightedge on the solid rail of the main track in the photograph. It is curved. At the point where the rod or stick touches the rail, it bends towards the loose rail, and in the direction opposite to the general curve of the track.

What happened to the train at this point? Going at high speed, the heavy wheels of the engine and the turned wheels of the tender went a trifle to the left, and each successive pair a little more, pushing the lower rail over until finally a flange took the wrong side of the V. Lay a straightedge on the main rail of that V and see where it points. The first car that straddled the V would naturally retard the speed of the front end of the train, and the rear end of the next car would naturally be pushed around by the momentum of the cars behind. The same movement would press the wheels of the engine and the tender against the solid rail, thus keeping them on the track.

Had the rails been straightened and provided with adequate guards, such a wreck would not have occurred, even if "a bit of steel had fallen away" from every wheel under the train. A switch on either side of a sharp curve is always dangerous, especially where a hill cuts off the view; and I would think, in all that vast expanse of country, there could be found a better place for it. Altogether this photograph shows the most glaring example of incompetency in track-laying that I have seen yet.

"When they dig out from the dirt the wheels and closely examine them, I believe they will find this: That the baggage-car wheels are not made of steel, but common chilled iron. The flanges of such wheels are brittle and would break as easily as rails. The finest Pullmans ride on twelve spoked paper wheels with Krupp steel tires. The paper part consists of several hundred thicknesses of straw paper glued together and kept under pressure six weeks, then turned in a lathe to the shape of a doughnut, fitted the space between the hub and the tire. Heavy steel-plate sides are then fastened to the wheel with many bolts through the paper core, screwed down tight and the ends riveted over the nuts. Such wheels, with proper care, are practically unbreakable by any strains to which

they are subjected in use. A broken flange would cause the fracture of the axle, or during the wreck the broken flange would cause the axle to break, which are usually fatal accidents. It is a pity that the wheels of the Honda train were not made of steel.

MEN AND THINGS OVER THE HILL

Japanese Match Trust.
The Japanese match-making industry is making a remarkable record in the match-making industry of the world. The total value of the match-making industry in Japan is estimated at \$5,000,000, and it is increasing at the rate of 20 per cent. per annum. The match-making industry in Japan is a highly organized and efficient industry, and it is a source of pride to the Japanese people.

Palace for London's Poor.

MUSIC AND THE STAGE

The Christ Church organ concert which has been conducted for the past year with much artistic profit and sympathy, concluded for the season last night with a recital of unusual merit.

Mr. Sanderson's first number was a pair of exquisitely beautiful selections—two from the program of the season.

Miss Marian Tiffany, who has been selected as a violinist of absolutely reliable excellence, offered in the program a recital of the most beautiful music.

The program concluded with the "Robert of Sicily," which she has played a number of times in the past.

Mr. Sanderson was assisted by his organist, Frank Gaby, both at organ and at the piano.

Silk Parasols
Recklessly Reduced

Seventy silk parasols that show, on close inspection, something to mar their freshness, at reductions averaging half.

Some of pink taffeta with pink enameled handles at a dollar; were \$3.50.

Some of flowered China silks cut from \$2.50 to \$1.50.

Some of grey Louise silk at \$2.00; were \$3.50.

Some of white linen embroidery edges or with insertion, at \$2; were \$3.50.

Some of navy blue taffeta, tucked or plain, \$3; were \$5. On sale Friday, not today.

\$3.50 to \$5.00

Sun Umbrellas \$2.50

26-inch Umbrellas of fast black union taffeta, many of them with handles which must have cost the makers fully as much as you need pay today for the umbrellas complete.

White Goods Sale Today

These prices hold good today and tomorrow only:

36-inch Nainsook of the 17 1-2c quality in twelve-yard pieces for \$1.50 a piece.

36-inch Nainsook of the twenty-cent quality in twelve-yard pieces for \$1.75 a piece.

The 25c quality of India Linon at 17 1-2c a yard.

Underprice Underwear

Women's and children's summer underwear at prices you might count yourself lucky to find at the CLOSE of Summer.

35c low-neck sleeveless vests with Irish crochet insets at 25c.

75c and \$1 Swiss Lisle vests in low-neck-sleeveless style, 45c.

Small sizes in 25c knit pants and corset covers at TWO for 25c.

Odds and ends in children's 25c and 35c vests and pants at fifteen cents or 2 for 25c.

(Rear of Annex.)

\$1.25 to \$5 Waists

On Sale Friday, Not Today, at . . . **95c**

Over two hundred sample wash waists in the same styles we are selling from regular stock at \$1.25 to \$5 are to be forced out tomorrow at ninety-five cents each.

Some of them rumpled and soiled, we freely admit, but there is no damage that one laundering won't set right.

(Second Floor.)

H. JEYNE CO.

THE BEST BUTTER AT JEYNE'S

"Where can I get good butter?"—the question with every careful housewife. You can get the BEST at Jeyne's. Fine, fresh, golden yellow—not colored—the exceptional goodness of which so many people are acquainted with. In one and two-pound rolls. Fresh daily. Order butter here. Old customers—new customers—strangers—all are cordially invited to visit our elegant new store at Sixth and Broadway.

SMOKE JEYNE'S FINE CIGARS

Sixth & Broadway and 208-210 So. Spring St

219-229 So. Broadway **Coulter Dry Goods Co.** 224-228 So. Hill Street

THE CAFE—FOURTH FLOOR

A refined, pleasant place in which to take breakfast (8:30 to 11); luncheon (11:30 to 2:30); or a cup of refreshing tea, dainty ices, salads, etc., during the afternoon up to 5:30.

Cool Silks for Warmer Days

The idea of wearing pongee silks in summer has come to us from Oriental and tropical climates, where years of experience have proved it to be the coolest of summer silks, as well as one of the most durable and pretty when made up.

26-inch imported Shantung pongees, in natural color, \$1, \$1.25 and \$1.50. 34-inch natural imported Shantongs, \$1.25, \$1.50, \$1.75 and \$2.00.

Natural Chefu pongees, 24 and 28 inches wide, 85c, \$1 and \$1.25.

Tokido natural pongees, 28 inches wide, \$1.50.

Real imported Shanghai pongees, in white, 22, 27 and 36 inches wide, 85c, \$1, \$1.25 and \$1.50.

24-inch natural pongees, regularly 65c, now 50c yd.

26-inch natural pongees, regularly 75c, now 60c yd.

35c Handkerchiefs 25c Today, Friday and Saturday

Fancy handkerchiefs in colored effects—a late fashion—allover plaids, stripes and tape border styles, also allover embroidered designs, in pink, blue, lavender or green; 35c qualities, for 25c each.

Sheer linen 1-8 inch hem handkerchiefs, with hand-embroidered poinsettia spray in the corners, 35c quality for 25c each.

Italian Silk Vests \$4.50 and \$5.00

The Muslim Underwear Section is showing a beautiful array of fine Italian silk vests, in pink or white, embroidered with dainty rose sprays in half a dozen styles. These vests will outwear the ordinary silk vest many times over, because they are not ribbed. Two qualities, \$4.50 and \$5 each.

Fabrics for Graduation Frocks

Among the dozens and dozens of white goods for the summer girl's shirtwaists and costumes, as well as for graduation gowns, that we've assembled for this whiff of all white seasons, from this and the other side of the seas, we mention today just a few, as examples of many others.

At 50c a Yard, White 36-inch dress linen—something new, shown in French Dry finish, especially for shirtwaist suits and skirts.

At 18c, 25c, 40c, 50c and 75c, White mercerized waistings, worth 25c, 35c, 50c, 75c and \$1 a yard.

WILEENOR AGAIN BREAKS JAIL

**"BAREFOOT BURGLAR" ESCAPED
IN SAN FRANCISCO.**

Was Being Taken to San Quentin Penitentiary to Serve Fifteen Years and in Violation of Sheriff's Orders Had Been Placed in Harbor Police Jail Over Night.

G. Fleece, the "barefoot burglar" is known to have been implicated in more than sixty burglaries in Los Angeles and who was recently sentenced to fifteen years in San Quentin penitentiary, escaped from the County Police Station in San Francisco yesterday night. He had been placed there over night by Jailer Martin Moore and Deputy Sheriff Woods, by whom he was being taken to the penitentiary.

According to a dispatch from San Francisco, there is considerable mystery as to how Flenor got out of the prison. When his absence was discovered at 1:40 o'clock yesterday morning, the door of his cell was looked and found open, but nothing was made of his escape. Lieutenant O'Day and Patrolmen Welch and Stroup, were on duty at the station all night and are completely mystified over the affair. An investigation has been ordered.

Aguirre and Vooda are still in San Antonio and no official report as to the clever criminal made his escape has been received here. Aguirre was taken to Sheriff Hammel yesterday and the fact of the escape was not given any details. Until the return of the officers all the facts will not be known here. Aguirre is expected to be in the North for some time to recapture his prisoner, but Fleckenstein admittedly the more astute of the two and those who know him think that he will succeed in eluding pursuit which Aguirre may attempt.

one of this particular prisoner of the hardest blows Martin had experienced in his life. Other police officers saw that a desperate man Fleenor took no chances with him, but they were not heard to remark on the fact that Fleenor was really an criminal and that there was a certain shrewdness in his action. Fleenor's long experience in this line of work probably led him to make more chances than a police officer would have taken. Fleenor fully realized what he was about to do and he issued orders to his subordinate to wait patiently. He issued positive instructions to San Francisco for some time. Fleenor saw fit to deliberately give his orders.

THE SHERIFF SAYS.
 Al Martin Aguirre not to take to San Francisco," said Sherman yesterday. "I knew that was safe till we had him in the vaults of San Quentin. He's another article we ever had to take care of."
 But Aguirre was impressed by the appearance of submission. "I thought he thought he never would get out," said Sherman, playing off and on. "But I knew he was a smart fellow. I was careful. I gave them strict orders to take him 'cut of the fall' line. They were ready to go on it. I let him know how they disloyal my orders. I let him get their telegrams. I found it was all right. I had a paper sent to myself: 'Felon's'

got away. I was afraid of it. I ought to have gone up with him myself, but I had so much to do, right after Fiesta.

"No, I shan't discharge Aguirre. He's a thoroughly good man, and I never did discharge a good man for making a mistake."

"I think the chances of recapturing Plenor are very slim, indeed. He's too shrewd. He won't take any chances, and he's clever enough to know what not to do. I shan't send any one up to hunt for him. I don't think anything would be gained. It's up to the 'Frisco police.'"

Plenor had no money with him when he was taken North. Though he admitted having received several thousand dollars from the many burglaries of which he was suspected, while denying that he actually committed any of them, no one has discovered where the money is.

The escaped felon was dressed in a dark suit of citizen's clothes, and a white vest. The manacles which he wore on his way to San Francisco were removed when he was placed in the jail.

TO PROBE LAND FRAUDS. DENVER, May 15.—The special federal grand jury, the first to be held in Denver, in many years, called to probe into coal and timber land frauds and to investigate mining swindles, convened here today.

The work will be in charge of Ernest Knebel, special assistant to the Attorney General, who has devoted most of his time for the last year, to land investigations, and Ralph Harzard, acting United States District Attorney. A dozen witnesses from St. Louis arrived today and others are expected tonight from Milwaukee.

Peters Shoe Co. of St. Louis Boosts Deep Waterway Project

Steamer Liberty, Loaded with First Cargo Consisting Wholly of Shoes Ever Shipped on the Mississippi—First Boat to Clear from St. Louis for White River Ports Carries Peters' Shoes Exclusively.

With flags flying and whistles blowing by every craft in the harbor, the steamer Liberty left St. Louis, Thursday, loaded with a cargo consisting exclusively of Peters Shoe Co.'s shoes for merchants in northeastern Arkansas—the first boat to clear from St. Louis for White River ports and carrying the first cargo consisting exclusively of shoes ever shipped on the Mississippi. From St. Louis to Batesville, Ark., the final destination of the Liberty, it is 1050 miles by water, and the trip will consume about ten days.

The Liberty will touch at Cape Girardeau and Memphis before entering White River, and on the White River at DeVall's Bluff, Des Arc, Newport, Batesville and other points. This unique trip was arranged by Mr. Wallace Byler, northeastern Arkansas representative of Peters Shoe Co., who sold the shoes comprising this cargo. Shipments are carried for the following firms, many of whom are represented among the guests on the boat: B. B. Bethell & Sons, Des Arc; Jones-Harvey Mercantile Co., Swifton; The J. W. Beck Co., Forest City; Stokes, Evening Shade; Geo. M. Francis Merc. Co., Madison; Sink, Newport; John H. Keel, Ingleside; R. F. Dunn & Son Co., Tuckerman; McDonald & Bond, Carlisle; A. F. Shoffner, Walker; King & Crockett, Searcy; Jack Barnwell, Cabot; J. W. Stewart, Biscoe; Heimgenway Bros., Wheatley; C. T. Doss, Jr., Cotton Plant; R. A. Cook & Bro., Grifftsville; J. E. Fonden, Kensett; W. S. Cullins, Jamestown; L. R. Simpson, Cushman; E. E. Allen, Newark; Chas. F. Smith, Sulphur Rock; I. C. Nuckolls, Cord; F. W. Brewer, Cove City; M. E. Tuckerman.

Baldwin Refrigerators for Government Hospitals

...Twenty-Second Year...

The Baldwin Refrigerator Company has been notified that its proposal to furnish the U. S. public health and marine hospital service with refrigerators for the current fiscal year has been accepted, making the twenty-second consecutive year that this important branch of the government service has adopted the Baldwin dry air refrigerator for use in all its hospitals and quarantine stations. So highly were these refrigerators regarded by the surgeons and stewards as far back as 1884-1885, that one of them was included in the government exhibit at world's exposition, New Orleans, marked "Standard refrigerator for hospital use."—Burlington Free Press, August 18, 1906.

The Only Practical Land-Locked Harbor, with A Big Appropriation Made United

Building a New Railroad

The New Double-Track RAILWAY Now Being Southwest Will Be of Orange and

PORT ORANGE HARBOR will be the only independent port of entry for Los Angeles and all of Southern California. The United States Government is now surveying the port Bay.

Los Angeles will have a magnificent FREE DEEP WATER HARBOR--the only one on the coast not controlled by railroads.

Newport Bay (the largest body of still navigable water between the Golden Gate and San Diego) has always been conceded to be the only logical harbor for Los Angeles, Southern California and the great Southwest.

Its development has been retarded by powerful railroads. The water frontage adjacent to it has been controlled by private individuals who until recently would not relinquish their holdings at any price.

The Port Orange & Santa Ana Railway Company, a corporation composed of prominent Southern California and eastern capitalists, after stupendous efforts, has succeeded in "breaking the deadlock" and a FREE HARBOR IS NOW POSITIVELY ASSURED.

The company is building a broad-gauged, double track railway from the city of Santa Ana to Port Orange--which will connect with the three great trans-continental lines and be a direct outlet to Port Orange Harbor for all the products of the great producing counties of Southern California.

There are no hazy probabilities--Port Orange is a splendid reality. Hundreds of acres of the best water frontage and land immediately adjacent to the harbor have been secured. The railroad is actually in course of construction.

Water Frontage--Manufacturing Site Warehouse Site Business and Residence Property For Sale Original Price

Buy at the Door of a Great Harbor and Join with Fortune \$500,000 Is Being Expended For Improvement of Port Orange Town

A Wealth of Splendid Residential Improvements Influential Commercial Bodies of the Harbor

The improvements, which will practically double the value of every inch of ground which are now well under way, will entail an expenditure of nearly A HALF MILLION DOLLARS.

These improvements will be completed to the minutest detail and will include an elaborate scheme of gracefully winding boulevards and parkways, aligned with walks and curbs.

A beautiful electrolit system of electric illumination will skirt the edge of the majestic cliff. The scores of electric globes reflecting in the mirror-like waters of the bay below will present a nocturnal scene of dazzling splendor.

The streets and parkways will be adorned with ornamental trees, flowers and shrubs. A complete and practical artesian water supply, from deep, perpetually flowing artesian wells, will furnish pure water to every lot in Port Orange.

A sanitary sewer system will also be established.

A Grand Hotel

A magnificent hotel will grace Creston Point, a location which has been pronounced by connoisseurs and globe trotters to be the grandest hotel site in America. The magnificent hostelry will be surrounded by tropical gardens. When completed the hotel and grounds will be one of the most striking show places in Western California.

Port Orange

FOR LOS ANGELES AND SOUTHERN CALIFORNIA!

Land-Locked Harbor, with Adequate Railroad Facilities, South of San Francisco
Made United States Government for Newport Bay.
 The New **Double-Track Broad-Gauged PORT ORANGE & SANTA ANA RAILWAY** Now Being Constructed Will Connect the Harbor with the Entire Southwest Will Be the Outlet for the Great Citrus Belt and the Products of Orange, Riverside, San Bernardino and Los Angeles Counties.

entry for Los Angeles and the new surveying Newport Harbor—the only harbor between the Golden Gate and the Pacific Ocean. The water frontage of the harbor is 35 miles from Los Angeles via the Huntington Beach-Newport Bay Railway. It commands Newport Bay—the largest land-locked body of water between San Francisco and San Diego. The "front yard" of the richest agricultural district in the Southwest. The only logical and practical coast shipping point for the great orange country. It will be the port of entry and principal distributing point for lumber and materials required for the rapidly developing counties of Riverside, Orange and Los Angeles. Orange is within 50 miles of over half a million people who will be benefited by the opening of the great harbor. More than six years the products of the East will be received for the great Port Orange via the Panama Canal.

Port Orange Harbor is the only land-locked harbor near enough to the southwestern railroad centers that can ever accommodate the vast commerce which will pour through this great artery.

REMEMBER THE LOCATION OF PORT ORANGE ON YOUR MIND.

CONSIDER ITS STRATEGIC POSITION.
 Consider the commerce of the Orient.
 Port Orange will be the entry Port for Coast Trade.
 It will be the receiving and distributing point for commerce via the Panama Canal.
 It will be the outlet of the vast wealth of products of the counties of Southern California.
OIL—the commercial fuel of the future.
OIL—will furnish the motive power for railroads and steamships. Oil is being used by trans-continental railroads.
ORANGE COUNTY HAS ONE OF THE GREATEST UNDEVELOPED OIL FIELDS IN THE WORLD.
 Although just in its infancy Orange County last year exported 175,000 barrels of oil.
OIL MEANS WEALTH.
THE KEY TO THE SITUATION IS THE NEW PORT ORANGE & SANTA ANA RAILWAY.
 The important link in the chain which will inseparably connect Port Orange with its wonderful tributary country is the **PORT ORANGE & SANTA ANA RAILWAY**—one of the shortest but one of the most important railroads in the United States.

Building Sites—House Sites—
Property For Sale at Original Prices
and Joining with Fortune.
Improvements in Orange Townsite

Improvements in Commercial Bodies Think of the Harbor
 The Santa Ana Chamber of Commerce. The Santa Ana counties and portions of San Diego will be tributary to the harbor and will also export large quantities of fruit and other products. It will also export large quantities of lumber and merchandise of the Pacific Northwest. Prior to the building of the wharf in the open bay, all freight business between Newport Bay and San Francisco was handled at Newport Wharf and in the open bay. The water frontage of the harbor is 35 miles from Los Angeles via the Huntington Beach-Newport Bay Railway. The water frontage for miles around the harbor is under the control of numerous private persons and are not controlled by the harbor. The harbor will be easily accessible to the Pacific coast and will touch all parts of the northern parts of the harbor. The completion of the Panama canal will, of course, increase the importance of the harbor at Newport Bay.

THE BERNARDINO CHAMBER OF COMMERCE.
 The Chamber of Commerce, U. S. A., Los Angeles, Cal. The Chamber of Trade, consisting of nearly 900 of the business men of the city, most heartily endorse the project to have a harbor at Newport Bay as it will make it a deep water port. When this harbor is completed, it will be a great advantage to the city and the harbor will be easily accessible to the Pacific coast and will touch all parts of the northern parts of the harbor.

MINES AND MINING.

BONNIE CLARE TO RUN MILL.

OPERATIONS TO START MIDDLE
OF NEXT MONTH.

Gold Mountain Railroad Will Run
to Property—Word Bullfrog Has
Been Dropped from Corporation's
Name—Operations by Angelenos in
Wide-spaced Districts.

The Bonnie Clare Gold Mining & Milling Company expects to have its twenty-stamp mill started by the middle of next month. The Gold Mountain Railroad, a branch line twelve miles in length, is to bring the mine into direct touch with the main line of the Goldfield railroad, whose owners are heavy share holders. So convinced are they of the value of the property that they are building to it.

The company has two large freighting outfits with fourteen animals to each, office buildings, bunk and boarding-houses. Eighty-six thousand seven hundred and twelve dollars and seventy-one cents has been expended for improvements, including the mill, cyanide plant, electric power, engines and boilers.

On the Battlement claim, work is down 300 feet. Very rich ore running up to \$36 to \$124 a ton. Most of the ore from which the mill will be supplied from the 400-foot level, where the vein is 15 feet in length and five feet in width, extending up to the surface, with average value of \$30 a ton. It is being worked by numerous agencies. On the Courtland claim there are some 4000 feet of workings. The depth is 700 feet and it is to be sunk to 1200. This claim is expected to furnish 200 to 300 tons of milling ore a day, average value \$35 to \$40 a ton. The company claims \$5,000,000 blocked out and in suit.

The name of the corporation has been changed from Bonnie Clare-Bullfrog Gold Mining Company to Bonnie Clare Mining & Milling Company, as the mine is in no sense at Bullfrog but in a district lying midway between Goldfield and Bullfrog.

In Providence Mountains.
The Kelson Mining & Milling Company of this city has sunk a shaft to a depth of 180 feet in the north end of the Providence Mountains in San Bernardino county, about six miles from the Bonanza King and nine miles from the claims of the Providence Gold & Copper Company. A twenty-eight-foot drift and a forty-foot crosscut have been run. Some fine gold and copper ore has been blown up, the average being \$15. The nearest station is Kelson on the Salt Lake railroad. The property has been under development since last August only, and consists of ten claims in three groups.

The officers and directors are George L. McIndoe, president; Charles E. Chapman of Fullerton, vice-president; W. H. Spake, secretary; J. H. Gardner, treasurer; Frank Baum, director; C. E. Jones is superintendent.

The Ocala Gold & Copper Company, a corporation of Connecticut capital, has a property which is just being developed, lying about three-quarters of a mile west, and a little farther in the same direction, the Hayden Mining Company has begun operations on claims.

On Mother Lode.
The Clio Power & Mill Company, a local corporation, is down 512 feet in its property on the Mother Lode in Tuolumne county. The vein is seventy-five feet and ore extremely rich. The adjoining property is running a 100-stamp mill and the Clio will put in one to handle its own ore. The officers are Henry Malmgren, president; W. E. McMartin, vice-president; Augustus Malmgren, secretary. Being in a long established district, little attention is attracted, the production of great riches having gone on there daily for so many years it is taken as a matter of course.

CONGRESS ENDS
WITH SINGING.
ITS INSPIRATION AND UPLIFT
WILL REMAIN.

"Little Pink Bundles That Are
Heirs of All the Ages" Receive
More Consideration from Parents
and Teachers at Closing Session.
Delegates Visit Pasadena Today.

With the singing of "America" and with many expressions of appreciation of the hospitality of Los Angeles, the tenth annual session of the National Congress of Mothers closed last evening. The meetings have been full of food for thought for parents and teachers and have left inspiration and uplift.

James A. Foshee delivered an address last evening on "Moral Training in the Public Schools," a subject that is attracting attention all over the land. Resolutions of sympathy for the family of the late Mrs. A. B. Cass and for Miss Mary Ledyard, kindergarten supervisor of Los Angeles, because of her recent great bereavement, were passed by the congress, as well as a resolution of regret for the absence of Mrs. Robert J. Burdette.

The afternoon session was a particularly interesting one, though tinged with sadness, because the late Mrs. Cass was to have taken part in the programme. Miss Mary Ledyard had charge of the afternoon and Mrs. Jefferson Gibbs read parts of the manuscript left by Mrs. Cass.

Four young kindergarten teachers in Los Angeles lent a bright note to the programme by delicious songs of child life.

The singers were Misses Ada Savage, Villa Augur, Charlotte Bailey and Anna Sterrett. The general subject for the afternoon was "The Child's Three Best Allies: Mother, Teacher and Physician."

The standpoint of the teacher was splendidly set forth by Prof. George Gates of Pomona College. In crisp, telling sentences, he gave in a nutshell the things to be desired in a teacher.

Mrs. E. C. Moore, in her talk on the physician's standpoint, touched the most vital and interesting note of the day to the mothers. The well-being of the child was considered from different aspects, and her humorous summing up of all that is meant by "these little pink bundles that are only organizations for the first few weeks of life and yet are the heirs of all the ages," was delightful. She referred to the fact that in each little one there is a fresh start made, and the parents have absolutely new material to mould as they will.

This is Pasadena day for the delegates, most of whom will leave for their homes by the end of the week. Many invitations have been extended to national officers to hold meetings along the line as they go home. Such meetings will be held in San Francisco, Phoenix and a number of other places. Next year, in Washington, will convene the first International Congress of Mothers, which is expected to be a memorable affair.

Alfred Benjamin & Co's., The Better Class of Suits, That Cost No More

Alone—separated from all other makes of clothing by important features which are never counterfeited—Alfred Benjamin suits afford that completeness of luxury, trim style, and faultless appearance which the modern business man demands.

Can anything account for the universal adoption of this fine clothing by the better class of dressers except its actual superiority?

The truth is—taking your own case for example—you cannot begin to appreciate the real meaning of Alfred Benjamin tailoring till you step in and see the suits, put one on, study it.

So commonplace does the average suit seem by comparison that it is a constant source of gratification and pleasure to wear Alfred Benjamin clothes the highest achievement in tailoring—in, ritely more style than any local tailor could possibly create.

Prices \$15 to \$50.

When the best can be had at these prices, you can hardly afford to wear a lesser quality.

Summer Suits
AT
\$10 and \$15
ARE HERE

\$10 For a Nobby Spring Suit

I know that most men who have been in the habit of paying much more for a suit will question my ability to deliver a satisfactory garment at \$10—until they see the suits themselves. The suits I sell at \$10 are not to be classed with the usual run of "made by the mile" suits at this price.

There is no mystery about the vast difference in quality. The usual run of clothing passes through several hands before it reaches the wearer—and every "hand" adds on his profit. I have a tailor who sends me his entire output to be sold direct to you—no selling expense and no middleman.

I have a complete display in both dark and light colors, two and three-piece suits—no limit to selection.

Those \$20.00 Suits, I sell for \$15.00, have caught on with a rush—Wearers of fine apparel appreciate the quality—Betterness—See them today.

Straw Hats
My entire summer stock is now complete—all the newest, nobbiest, latest shapes—reliable makes and a little lower in price than you usually pay.

\$1.50 and \$2.00
Summer Vests \$1.00

By a lucky purchase I have secured several hundred of the finest summer vests to be had and I am able to sell them at one-third and one-half off the regular selling price.

Mayor Appeals to All Voters to Support Bonds.

If you want to know the truth call on me. Help defeat the greatest cause ever organized west of New Mexico. We want ten workers in every town.

This is the text of the first anti-Owens River bond dodger. It was distributed about the city yesterday by the Dodge directors each member of the "Owens" to assemble at No. 735 Broadway block, where "anti" headquarters have been established.

A newspaper reporter called at these headquarters during the afternoon and reported, in charge. The room was a party table and a camp stool; the furnishings were unsold copies of the Evening News.

A newspaper man applied for a "pass" as soon as we got this word. I am taking a flyer, but by Saturday we expect the corporations that are expected to come through first examination. After that we will be in a position to make a move.

Admitted frankly that he has been in the movement since and that he expects to rally to his support some thousands to enable him to take the place as the leader of the movement.

That he expects former Governor H. C. Gage to raise \$2000 for the cause.

ALA-SODA

CHEMICALLY PURE CHEMICALS

From a Natural Resource Into a Finished Product

If you will come to our office we will show you the original of these letters and many others besides, proving the demand awaiting our plant.

Among the industrial enterprises of this city and of this coast there is intense interest over the development of this soda industry. It means a better source of supply for this important chemical element necessary in these various industrial enterprises. It means further, the making possible of many another industry that would otherwise be unprofitable except for this supply, for there is not another single chemical element as widely used in manufacturing as soda. In its varied forms, with a growing market and a limitless supply of raw material, a successful process of conversion, we offer the investor the greatest industrial ever offered on this coast—an enterprise that will earn better than 25 per cent. dividends per year.

Indisputable Evidence of READY MARKET FOR OUR SODA PRODUCTS

and not from crude soda, such as nature has stored up by the million tons in the deserts of this Western country only, and where, by her peculiar alchemy, has prepared this raw material, almost ready for commercial use.

Of these vast deposits of crude soda we own over 4000 acres of the best in all that is to be found—analysis show them to run from 40 to 70 per cent. pure, and we have a machine and process, owned by the company, which ownership you will share in if you are a stockholder, that will absolutely revolutionize the alkali or soda industry of the United States.

Besides offering this proof of waiting market for our product.

WE HAVE JUST AS POSITIVE PROOF OF THE ENORMOUS PROFITS TO BE MADE IN THIS SPECTACULAR INDUSTRIAL ENTERPRISE

Only Three More Days to Buy These Shares at 80 cents

A 25 PER CENT. SAVING TO BUY NOW

Our enterprise will be broken this week for the first building of our enterprise—a soda ash plant—capacity 30 tons daily. At a conservative estimate, at \$10.00 per ton profit; \$300 daily; over \$100,000 per year on only one of the eight products. 25 PER CENT. ANNUAL DIVIDEND WILL BE EASY.

ANOTHER OFFICE BUILDING.

Seven-story Structure to Be Erected at Fourth and Hill Streets by a Syndicate.

Arrangements are said to have been completed for the erection of a seven-story, Class A office building on the northwest corner of Fourth and Hill streets, at present occupied by four small buildings of nominal value. The property is owned by Mrs. R. E. Saunders of No. 1242 West Fifth street. The property owned by Mrs. Saunders is said to have been leased by a syndicate of local investors, represented by Oscar B. Smith, for a period of fifty years.

The building will be a magnificent structure, and the plans call for an expenditure of between \$200,000 and \$300,000. At present prices the property, which is 60x125 feet in size, is valued at about \$400,000. It has been in the Saunders family for many years, having been purchased in 1880 by Mrs. Saunders' father for about \$12,000.

NO SHRINER MEMORIAL SERVICE.

Al Malaikah Temple Will Leave That Duty to the Regular Masonic Organizations.

Al Malaikah Temple will not hold any memorial service for the Shriners killed in the Honda wreck Saturday afternoon. Potentate Motley H. Flint said yesterday that the Shrine Temples are purely social organizations and that any memorial service would be held by the regular Masonic lodges and not by the temple.

Potentate Flint sent the following telegram to the recorder of Rajah Temple, Reading:

"The citizens of Los Angeles are overwhelmed with sorrow and sympathy most deeply with you all. Have just returned from Santa Barbara and San Luis Obispo, and am doing everything possible to be done for care of dead and relief of injured. Please purchase suitable and appropriate floral offerings for each casket and send bill to me."

MAJESTIC THEATER BUILDING.

Work may be begun within a few days on the Majestic Theater, on the west side of South Broadway, between Eighth and Ninth streets about fifty feet south of the great Hamburger store. M. A. Hamburger, of the Hamburger Realty and Trust Company, said yesterday afternoon: "All bids are in with the exception

A word about our deposits. We own at Soda Lake, Danby Lake and at Afton, what are pronounced by expert chemists and mineralogists as the cream of all the deposits of crude soda in the deserts of the West. This resource, so rich in profit, is not a new, unknown quantity. Since as far back as 1853 they have been known by scientists, but the mad rush of the prospector has been for Gold, neglecting many other things of sorer profit. The lack of railways, too. Now our deposits have this necessary item. Next was process—we have that in our modern machine and now we need more money. Some of your cash, to help develop this great resource, and you can't afford to pass our offer.

LAYING PIPE LINE.

BAKERSFIELD, May 15.—(Exclusive Dispatch.) Work is being rushed on the Standard's Midway pipe line, and the pipe is being connected by the Standard's expert gang, a mile a day. Seven miles of the pipe have already been put together, sixteen miles are laid out on the ground ready for connection, and work has been started on the burying of the pipe at the Kern River end.

A private telephone line is also being built, along with the pipe line, and this has already been extended as far as Rosedale.

According to the contract with the Midway producers, the Standard has now only about three months left in which to complete the line as far as the Midway fields, and work is being rushed as fast as possible, that the line may be completed and ready to handle oil on the correct date.

The Raymond Oil Company of Pasadena has a large tract near the Logan in the Arroyo Grande district, which it has been holding for a number of years. It has never developed its territory at all, and it is said will not do so, at least for the present. It is said that the intention is to sell the land, if possible.

To Our Clients

We have positive evidence from a reliable source that the Western Union Oil Company will be paying 100 per cent. on its Stock at \$1000.00 per share within six months from the date more than a year ago we predicted that Western Union would go to \$500.00 per share. The developments since that time warrant us in making the prediction that Western Union Oil Stock will go to \$1000.00 per share within the next six months. Therefore we not only advise you to hold your shares but urge you to add substantially to your present holdings.

STOCK MARKET VERY DULL.

The condition of the local stock market, as reflected during the session of the Stock Exchange yesterday, was dull and dragging. The market was very dull, and the condition of the local stock market was reflected during the session of the Stock Exchange yesterday.

CAPITALIZATION.—The company is organized for 500,000 shares of the par value of \$1.00 each. Of this amount between 25,000 and 30,000 shares are still in the treasury.

PROPERTY.—The company owns outright 61 acres—all proven territory, and 100 acres, under a most favorable 20-year lease—a total of 161 acres located in the Santa Maria field.

DEVELOPMENT.—Oil well is now producing over 500 barrels a day. This is doing so very well. The company is now producing over 500 barrels a day. This is doing so very well.

MANAGEMENT, CONTROL, ETC.—The company is managed and controlled by men of integrity and sound business judgment. This control, under a pooling agreement made when the company was organized, lasts until 1911, thus insuring the greatest possible stability in the company's operations and a continuation of the policy to develop the property is pledged, that is, to produce oil as rapidly as possible to a small lot; to operate the property on the most economical basis; and to use the highest possible dividends. We have thoroughly investigated the company and its property and recommend its stock unqualifiedly as a safe and sound investment carrying the certainty of large dividend returns and ultimate strong advance in market value.

CONTRACTS.—A three-year contract for entire output up to 35,000 barrels per month at 50¢ a barrel at the well was made with the Standard Oil Co., about thirty days ago. The company are offered a contract for all further production up to 100,000 barrels per month at same price, but have declined to sign it, believing oil will be higher.

DIVIDENDS.—The company's dividends will commence about August first and will be increased as fast as new wells can be brought in. The management is openly and positively pledged "To produce and sell all the oil and pay the highest dividends possible." They state that the increase after August can be safely reckoned on to make the total not less than 5 per cent. a month, and they hope to reach 8 per cent. a month within the year. The company is absolutely assured of the sale for every barrel of oil it can produce.
